FOREIGN
TRADE

ELECTRONIC INDUSTRIES ASSOCIATION
2001 PENNSYLVANIA AVENUE, NW • WASHINGTON, DC 20006-1813 • (202) 457-4900

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

SEPTEMBER 1991

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistical programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronic products.
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronics Foreign Trade Five-Year Summary

A compilation of year-end statistics from EIA's monthly publication. Featured are import and export data for more than 300 electronic products, covering the most current five-year period.

Update

The monthly Marketing Services Research Center newsletter is designed to keep its readership abreast of the Center's activities and new electronic industries information resources. **Update** reports on new market research, provides information on new technologies and industry trends, annouces the Research Center's latest inquiries, and offers a special statistical "Economic Data Bank."

Focus

The EIA Marketing Services Department newsletter reports on the latest Department statistics, publications, activities and plans, while also informing the readership about related industry developments and up-to-date government information.

ELECTRONICS FOREIGN TRADE

ELECTRONIC INDUSTRIES ASSOCIATION
2001 PENNSYLVANIA AVENUE, NW • WASHINGTON, DC 20006-1813 • (202) 457-4900

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

OCTOBER 1991

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics products.
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Electronic Industries SCANNER

The monthly Marketing Services Research Center newsletter is designed to keep its readership abreast of the Center's activities and new electronic industries information resources. **SCANNER** reports on new market research, provides information on new technologies and industry trends, announces the Research Center's latest inquiries, and offers a special statistical "Economic Data Bank."

FOCUS

The EIA Marketing Services Department newsletter reports on the latest Department statistics, publications, activities and plans, while also informing the readership about related industry developments and up-to-date government information.

ELECTRONICS FOREIGN TRADE

ELECTRONIC INDUSTRIES ASSOCIATION
2001 PENNSYLVANIA AVENUE, NW • WASHINGTON, DC 20006-1813 • (202) 457-4900

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

NOVEMBER 1991

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics products.
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Electronic Industries SCANNER

The monthly Marketing Services Research Center newsletter is designed to keep its readership abreast of the Center's activities and new electronic industries information resources. **SCANNER** reports on new market research, provides information on new technologies and industry trends, announces the Research Center's latest inquiries, and offers a special statistical "Economic Data Bank."

FOCUS

The EIA Marketing Services Department newsletter reports on the latest Department statistics, publications, activities and plans, while also informing the readership about related industry developments and up-to-date government information.

ELECTRONICS FOREIGN TRADE

ELECTRONIC INDUSTRIES ASSOCIATION
2001 PENNSYLVANIA AVENUE, NW • WASHINGTON, DC 20006-1813 • (202) 457-4900

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

DECEMBER 1991

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

*REPRESENTS CUSTOMS VALUE OF ALL PRODUCTS IMPORTED UNDER THE GENERALIZED SYSTEM OF PREFERENCES (GSP). THE GSP PROVIDES THAT SPECIFIED ARTICLES FROM DESIGNATED BENEFICIARY COUNTRIES ARE DUTY FREE.

* Previously referred to as Electronic Parts. Include electromechanical components.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Electronic Industries SCANNER

The monthly Marketing Services Research Center newsletter is designed to keep its readership abreast of the Center's activities and new electronic industries information resources. **SCANNER** reports on new market research, provides information on new technologies and industry trends, announces the Research Center's latest inquiries, and offers a special statistical "Economic Data Bank."

FAST FACTS PACKETS

FAST FACTS information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, Digital Equipment, Home Theater, CD Players, and U.S. Consumer Electronic Sales.

Please indicate your request by checking the appropriate box(es) below:

- ☐ **Electronic Market Data Book 1992** (available June 1992)
  (pre-publication price—$100; regularly EIA Member/Participant*—$75 and NON-EIA Member—$125)
- ☐ **Electronic Market Data Book 1991, Table of Contents**
- ☐ **Electronic Market Data Book 1991**, $50
- ☐ **Electronic Market Trends** (One year—12 issues)
  (EIA Member/Participant*—$100; NON-EIA Member—$150)
- ☐ **Electronic Market Trends** (Single copies—$15 each)
- ☐ **Electronics Foreign Trade** (One year—12 issues)
  (EIA Member/Participant*—$100; NON-EIA Member—$150)
- ☐ **Electronics Foreign Trade** (Single copies—$15 each)
- ☐ **Electronic Industries Scanner**
  (EIA Member/Participant*—$50; NON-EIA Members—$75)
- ☐ **Fast Facts Packets:** topics include Camcorders, CD Players, U.S. Consumer Electronics Sales, Digital Electronics, and Home Theater
  (EIA Member/Participant*—FREE; NON-EIA Member—$15)
- ☐ **Marketing Services Research Center Information** (FREE)

☐ Check enclosed $_____ (Payable to the Electronic Industries Association)
All orders must be accompanied by full payment in U.S. Dollars. Please add 6% sales tax for Washington, DC purchases.

Prices include shipment in the U.S. **Foreign Airmail**, add the following charges: $12.00 per copy for **Market Data Book**, $60.00 for one year of **Foreign Trade**; $5.00 per single copy of **Foreign Trade**; $36.00 for one year of **Trends**; $3.00 per single copy of **Trends**; $15.00 for one year of **Update**; and $5.00 for one year of **Focus**.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

JANUARY 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, Digital Equipment, Home Theater, CD Players, and U.S. Consumer Electronic Sales.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

FEBRUARY 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, Digital Equipment, Home Theater, CD Players, and U.S. Consumer Electronic Sales.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

MARCH 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, Digital Equipment, Home Theater, CD Players, and U.S. Consumer Electronic Sales.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

APRIL 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, Digital Equipment, Home Theater, CD Players, and U.S. Consumer Electronic Sales.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

MAY 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, CD Players Digital Equipment, and Home Theater.

Consumer Electronics U.S. Sales

This bi-annual publication provides current and historical unit and dollar sales data for most Consumer Electronic product categories (audio, video, home information, accessories, blank media, and batteries) and total factory sales for the industry. In addition, data is included regarding trends in other Consumer Electronic product categories and household penetration rates.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

JUNE 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, CD Players, Digital Equipment, and Home Theater.

Consumer Electronics U.S. Sales

This bi-annual publication provides current and historical unit and dollar sales data for most Consumer Electronic product categories (audio, video, home information, accessories, blank media, and batteries) and total factory sales for the industry. In addition, data is included regarding trends in other Consumer Electronic product categories and household penetration rates.

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

JULY 1992

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Fast Facts Packets

Fast Facts information packets offer current market overviews on some of the Research Center's most "popular" topics, including: Camcorders, CD Players, Digital Equipment, and Home Theater.

Consumer Electronics U.S. Sales

This bi-annual publication provides current and historical unit and dollar sales data for most Consumer Electronic product categories (audio, video, home information, accessories, blank media, and batteries) and total factory sales for the industry. In addition, data is included regarding trends in other Consumer Electronic product categories and household penetration rates.
